ABOUT US

Our story years ago from Father to children, the old traditionally took the first steps of a world-class brand. The great magic was in the craftsmanship. It was shaped by hands over fire. It continued in a four-square-meter workshop in the Grand Bazaar, embroidered with hands and decorated with stones. Decorated with stones from all colors of the city, from India, Arizona, Iran, they traveled all over the world to meet the women. From New York to Los Angeles, from Mexico to HongKong, jewelry born from our traditions has adorned it. A gift from the hands of our masters to elegant hands...

Since the early days, Doris' unique activities in a competitive industry such as the jewelry industry began to shine like a star in a gold industry. The unique products offered to the market by Doris in terms of aesthetics and the weight of gold applied due to the increase in the gold price day by day began to attract the attention of many addressees and changed the taste of the customers.

One of the most special advantages of the jewelry profession is the meeting of art and industry.
